

AFS MGA

Marine Gasoline Additive

Application

AFS MGA is specially formulated for marine engines and is designed to prevent the problems associated with ethanol blended gasoline, such as phase separation, moisture contamination, poor stability and the formation of power-reducing carbon deposits.

Key Performance Benefits

- Helps to keep clean and clean up intake valves and injectors, which can result in:
 - Optimized fuel economy
 - Maximized power and acceleration
 - Reduced emissions
- Helps prevent phase separation
- Eliminates carbon, varnish and sludge
- Reduces gum formation
- Helps control harmful peroxide formation
- Provides seasonal storage stability
- Excellent combustion chamber deposit control
- Good demulsibility
- A-rating corrosion protection

Typical Characteristics

Appearance	Clear, yellow liquid
Specific Gravity @ 60F	0.873
Lbs/gal	7.29 lbs.
Flash Point, PMCC, F	142F
Viscosity, cSt @ 77F	4.40
32F	10.73
0F	28.34
-22F	73.49

Recommended Treat Rate = 1:3000 gallons of gasoline
