

**ADVANCED THINKING AND NEXT GENERATION TECHNOLOGY
ENHANCING THE FUEL THAT POWERS YOUR BUSINESS.**

ADVANCED FUEL SOLUTIONS, INC.

O.P.T.

Optimum Performance Technology

O.P.T. is formulated to meet the demands of the high pressure common rail (HPCR) fuel injector systems. O.P.T. is a combination of a next generation detergent balanced with twin stabilizers, corrosion inhibitors, and moisture dispersants to clean and protect sensitive fuel injectors and the entire fuel handling delivery system. O.P.T. is effective in all diesel powered equipment and is engineered to support the use of biodiesel in ultra-low sulfur fuels.

Addition

O.P.T. may be continuously or batch blended into fuel as a concentrate or as a stock solution. Continuous dosing into the fuel is the preferred method of addition.

For personal safety, first aid, storage and handling, see the safety data sheet (SDS) for product specific information.

O.P.T. is a fuel additive that provides the following functional and performance benefits:

- Improved and maintains horsepower
- Maximizes fuel economy
- Cleans high pressure fuel injectors
- Extends filter life by reducing soot and sludge formation
- Provides thermal and oxidative stability
- Reduces exhaust emissions
- Prevents corrosion
- Disperses water

Typical Properties

Appearance.....	clear, dark amber
Specific Gravity @ 15.6C.....	0.9114
Density, lb./gal, 60°F.....	7.59
Flash Point, PMCC	140°F
Pour Point °F.....	-50
Viscosity, cSt @ 40°C.....	6.38
Recommended Treat Rate.....	Clean up: 1:2,500 Keep clean: 1:3,500
